

WORKING TOWARDS SUSTAINABLE FUTURES

IDP is committed to building sustainable futures and improving the lives of our customers and our people. With a Corporate Responsibility program in place across 30 countries, our goal is to harness the collective power of IDP teams to help address the biggest challenges facing the world today.

In FY21 we commenced a program to measure our Scope 1 and 2 carbon emissions, establishing a global baseline for reduction strategies.

A key summary of FY20 findings is below:
